Killed by a Bear.

From the Leadville, Col., Herald.

Last Sunday a son of Mr. Lindsay, of Red Cliff started out to hunt deer, a large herd having been seen on the mountain in the vicinity. He struck the trail of the deer and followed them a considerable distance up the mountain, the sign getting more distinct as he advanced. Feeling that he was close upon the game, he was moving cautiously along when the moving of a large animal in the bushes in his immediate vicinity attracted his attention, and, thinking that he had come upon the game, he fired into the bushes, when, instead of a deer, an enormous cinnamon bear, accompanied by two cubs, broke cover, and was on the unfortunate young man in an instant. The first blow took Lindsay on the top of his head, and laid the skull bare, the scalp being entirely torn off. This blow prostrated Lindsay, and then the animal commenced tossing the man about, each blow mutilating him horribly. After the man had been mauled until he lost consciousness the bear left, and Lindsay's friend came up and took him away. He died soon afterward.

Stockings That the skin Shows Through.

The following is from a fashion article in the Cincinnati *Enquirer*: "A friend of mine held a wad of something in one hand, and it was not so large but that she could close her fingers over it. I asked her what it was. 'A new pair of stockings,' she said. 'Stockings!' I echoed incredulously. She showed them, and stockings they surely were, but of such a gossamer texture that they were of next to no weight at all. They were rather bright scarlet in color—too bright, I remarked. 'Oh, they look so now,' the said, 'but they won't when they are on. See that,' and stretched one over her plump, white arm. 'The skin fairly shows through and makes it a very light pink.' 'So the color when worn, depends very much whether the wearer is a blonde or a brunette.' 'That's a fact—sure enough. On a negro woman, I guess they would be a reddish brown.'"

Armed to the Teeth

Is a very common expression, but we think that armed to embellish and preserve them to a ripe old age is decidedly more appropriate. This can be done by keeping yourself supplied with a bottle of that splendid dentifrice, Fragrant SOZODONT, which will beautify the teeth and preserve them from the ravages of decay. SOZODONT contains no acids or gritty substances which injure the enamel but is composed of rare and antiseptic herbs, which have a beneficial effect on the whole economy of the mouth. 8-1-1m D&W

LIKE OIL AND WATER, HARD TO MIX.

An Indian reservation is about as unsatisfactory a tenant as a country can have. Whatever benefits the Indians may derive from their grant are begrudged them by their white neighbors, and there seems to be no escaping the race prejudice, which universally shows itself wherever the white man comes in contact with the red, yellow or black. There are many people in Reno who actually believe that the Pyramid Lake reservation is set apart rather to damage the whites than to benefit the red man. They would stoutly maintain if questioned, that there were not twenty Indians on the reservation, and that they had possession of a vast tract of the finest land in the country. The truth is that there is about good land enough to make one nice ranch. Not over 250 acres are under cultivation, and there are about 500 Piutes who make it headquarters. It would be of great benefit to this county if the reservation could be removed, but, as the authorities very aptly observe, there is no reservation in the United States that white men do not covet. The discription given elsewhere is from personal observation, and may prove interesting if not instructive.

THE REPUBLICAN PLAN.

Discussion has two objects; one to convince the hearer, the other to relieve the speaker. The man who keeps the first idea in view studies every word or motion as well as the character and state of mind of the person or audience he addresses. He appeals to the reason, not to the passions. Those who talk from the other motive usually get angry and indulge in falsehood, denunciation and abuse. A child can tell which would be the most effective. The arguments which reach the reason make lasting and governing impressions. An angry man can stamp and curse his life away without being felt in thinking circles. All that is necessary to elect Garfield is for the Republican party to observe this distinction. Leave denunciation and slander to the Democrats. Let them revel in blackguardism and wallow in filth. Let them heap up mountains of calumny and try to hide their own villainous record behind them, but let it be the endeavor of the Republican party to keep men in a reflective mood, and there will be no danger of the voters of this nation placing in power the party of obstruction, of disintegration, of anarchy and of repudiation.

EDITORIAL NOTES.

The "resonator" is a newly-invented instrument for increasing the volume and power of the human voice in singing. The instrument is a gold plate fitted to the roof of the mouth and operates as a sounding board. The inventor says the resonator will not give a good voice to one who does not already possess one, nor will it eradicate any faults in singing, but properly used it is reported to have a remarkable effect in increasing the power of the sound which a singer can produce, and this without deteriorating its quality or increasing the effort required.

She should be careful not to slobber a kiss, but give it as a humming bird runs his bill into a honeysuckle, deep, but delicate. There is much virtue in a kiss when well delivered. BORN.

BACON—In Reno, August 5, 1880, to the wife of B. F. Bacon, a son.

JOTTINGS.

—Have you registered?

—B. F. Bacon is the father of a promising boy.

—W. L. Knox is quite sick with cholera morbus.

—A new addition to be built to Hon. C. S. Varian's house.

—Mrs. Caldwell has three nice furnished rooms to rent. See 50 cent ad.

—W. N. Knox will sell his house on account of leaving town. See 50c ad.

—The County Central Committee met to-day, but as returns were not in, adjourned until Monday.

—The First National Bank shipped three bars of bullion to-day belonging to the Ophir Tailings Co., worth $2,000.

—J. C Sparks was arrested yesterday for selling cigars without a license. He deposited $25 with Judge Young, and was released on his own recognizance, promising to appear at 1 o'clock to-day for sentence.

—Lachman & Meyer are agents for the New Home and Crown sewing machine. It combines every improvement ever made in any machine, and for finish, durability, light running, simplicity and cheapness is preeminent.

—Pete Evans was the recipient of a fine "mere sham" pipe last Monday. It is A, No. 1., T. D., highly colored. It came by express, charges prepaid. Pete is justly proud of his pipe, but would like to know who sent it. This being leap year he is afraid some fair one sent it and will follow it up with a proposal.

The Boca Shooting Scrape.

Dan Frazer who was shot at by Kenoff at Boca had a furrow cut through his hair by the ball. Kenoff is watchman at the Boca brewery. The two men went into a saloon together to get a drink. After some discussion, Kenoff called Frazer a son of a — —. Frazer then struck Kenoff with his fist. Kenoff instantly pulled a pistol and fired. Frazer had no weapon and went off. Kenoff fired only once. Kenoff was arrested and his examination began yesterday (Thursday) in the Justice's court at Truckee. A number of witnesses were in attendance from Verdi. The examination was continued until Saturday. During the examination, Frazer, the complaining witness, somewhat exhiliarated with spirits, called the Justice a son of a ——. The Court sentenced him to 24 hours' imprisonment for contempt, but he was released last evening to enable him to return to Boca.

Good Fishing.

A. McKinley of San Francisco returned to Truckee last night from a trip to Webber Lake. He had splendid fishing, his catch aggregating 535, an average of 60 a day. They were all caught with the fly.

A Forest Fire.

The fire about Verdi is on Jack Foulks' timber land, north of the river and about two miles west of Verdi. It is on about the same ground as last year's fire.

THE PIUTE AT HOME.

The Indian Reservation—The Farmers Crops Fishing, Buildings, Tools, Etc.—The Way They Live—The Agent and His Staff Officers.

Pyramid Lake Indian Reservation covers an indefinite tract of land extending from the railroad to the north end of the lake. The word indefinite is used, because no one knows just where it begins or where it ends. Monroe's survey started a little way south of where Wadsworth now stands and took in a narrow strip along the river to its mouth. There it widened out and covered the whole lake and a greater or lesser strip along the shore, in some places several miles in width and at others very narrow. Lately the Department has ordered the agent to consider a line crossing the river near Gregory's ranch, six miles north of Wadsworth, to be the limit, so far as trespassers were concerned. The only part of the reservation which is actually used for the benefit of the tribe is a narrow strip of land extending about five miles up and down the river, and kept for farming and stock-raising, and a few miles of river and lake front near the mouth, which is used as a fishing ground. The only benefit claimed to be derived from the rest of the immense tract is that its being in the reservation prevents the whites from fishing and gives the Indians a monopoly of a very profitable business. The good land spoken of above comprises less than 1500 acres, only 250 of which can now be made useful. This is divided up into

LITTLE FARMS

and worked by the Indians, a little being reserved as an agency farm and cultivated for the common good. Crops this year were gathered from about 10 acres alfalfa, 12 of oats, 5 of potatoes and 5 of barley, besides other vegetables. There are 15 miles of good fence, mostly willow. Some of the best land was overflowed and a good deal of hard work lost. Doctor Jim has a 3-acre ranch, Spanish Joe 10 acres, George Holbrook 2, and others have small patches. There are no orchards The agency has a small saw mill which cuts cottonwood logs that would make a Truckee mill man sigh. The agency buildings stand on the east side of the Truckee river, between the barren bluffs and a beautiful grove of cottonwoods, extending to the river half a mile away, and about three miles from the lake shore. The agent's residence is a neatly whitewashed building of six rooms. The clerk's house has the same number. The frame and outside are of cottonwood lumber cut on the ground. Inside finish is Truckee pine. There is a big cellar dug into the hill in the rear of the agent's house. A blacksmith shop, ware-house, carpenter shop, corral and barn are clustered around. There are 9 horses, 5 wagons, 1 windmill, a mower, cleaner, horse rakes, plows, etc., owned by the agency. The school house stands up on a sightly place and is the first thing seen in driving in. Miss Agnes Spencer is in charge, and she tells many amusing things about her pupils. There is an average attendance of 12, and she has 52 names on the roll. The boys attend better than the girls. The girls seem to take but little interest and they have to work more outside than the boys. They have been under instructions since February. Some of them have learned to read a little, a few can add some but none can carry. Most of them know their letters, the days of the week, etc. They have

NO RELIGIOUS INSTRUCTIONS.

The present agent is J. E. Spencer of Rochester, New York. The Indians like him, and if there is anything in physiognomy he is a kind and good man. W.H.H. Wasson of Flandrean, D. T., is clerk. He is a bright business man and his whole heart is in the work of elevating the Indian. The other officers are M. S. Vogan, farmer; C. P. Brant, engineer; W. C. Richardson, carpenter; E. Griswold, trader; George Queep (piute), interpreter and Dr. F. R. Wagenr surgeon. Mr. Spencer has his wife and two daughters, and Mr. Wasson his wife and three sons at the agency. These persons, with Miss Hattie E. Ahira, a visitor of Miss Spencer's, are the only white persons at the reservation. The general impression is that the government supports the Indians. This is incorrect. The Indians are supported only when they become sick and infirm, except that the agent may give assistance to those who are at work trying to support themselves. If a man is trying to improve a piece of land he can get provisions, etc. The supplies consist of flour, bacon, sugar, tea, blankets and clothing. An appropriation of $13,500 is all Mr Spencer has on which to support the agencies at Pyramid, Walker Lake and Moapa. The Indians are

WORKING PRETTY WELL.

They have a ditch partly built that will cover 2,500 acres of land. It will be nine miles long when finished, four feet wide and one deep. While it was being prosecuted there was a force of 450 Indians at work. A dam will be built in the river and the work pressed to completion at a cost of over $2,500, after which the land will be divided up into about a hundred farms and given to the Indians to work. The officers say there are that many families ready and anxious to settle down. They say there are 500 Indians who make the reservation their home, and they estimate that there are 1,000 ponies owned there. It is claimed that the tribe is improving and that it can soon be made self sustaining. Mr. Wasson tells with pride, of a tribe in Dakota whose agent he was, that now have no agent at all. They live on their own land and one of their number is County Commissioner. Mr. Spencer claims that the reservation is too small, that there is not good land enough, when divided up, to support the tribe. Hence they have to go out among the towns and earn grub. He says the Piutes are general truthful, honest and industrious, and the mahalas generally chaste unless they fall into a wandering, gypsy life, when they get lazy and vicious. He says the Indians that give Reno so much trouble are Washoes; a lazy, worthless tribe numbering about 200, who have no agent and no reservation. The Piute is willing to work, never begs except to ask to work for money or his breakfast, and always does his work well.

Home Again.

Governor Kinkead came in on the overland train from the East last evening. He expressed great pleasure at being home again. He says the weather East is awful; it is sweltering no matter whether the thermometer is up or down. He says when it is at 140 it might as well be 5,000; it would knock a man just as quickly; the nights afford no change; it is sweat, sweat all night, with no chance for recuperation. He is delighted with Garfield. He thinks New York is sure for several reasons. One is, Tammany and Tilden are not by any means reconciled, Garfield is gaining steadily in New York city, and Hancock is being carefully weighed. The immense prosperity, the big crops and resumption are fighting for Garfield. He says wherever Garfield shows himself he captures the people by his noble appearance and winning manners. He says the people will never know what a wise choice they made until history writes up Garfield's administration. The Governor called on Gov. Foster of Ohio; he likes him immensely. He says it is simply a question of "how much" in the Buckeye state.

Latest from Jupiter.

For some time past, says the Bodie *Free Press*, it has been an open secret that a new and important discovery had been made on the 500-foot level south of the Jupiter mine. In the meantime, the work of drifting to correspond on the 600-foot level was speedily pushed. Early yesterday morning the ledge was reached and found to be stronger and richer than the original discovery. Its character was also found to be correspondingly significant of present and future importance. Its outside formation, moreover, strengthened the idea of permanence and shelf-like features cutting and pushing through the surrounding rock regardless of the usual fracturing. The ore is sensationally rich in both gold and silver, the latter showing both free and leaf-like, as well as in the best form of black sulphurets. It also possesses the stain of ruby silver ores, heretofore quite unusual so far north in the district, where almost wholly gold ore has been the rule.

Little Beauties of Nature.

Tule Frank made Dave McFarland a handsome present a few days ago. It consisted of two bright green, glassy bodies an inch long, looking like pendants to a lady's ear drops. They were handsomely marked with gold spots at one end. Dave packed them in coton and kept them in a warm place. In a day or two indistinct lines began to show through the thin casing, and the gold spots disappeared. The case was soon swelled to its fullest limit and shone like a jewel. Through the sharp end a little, thread-like arm was pushed day before yesterday, and in a few hours a yellow and black-winged butterfly was out of its shell. It is still very weak and unable to fly. The other egg will be hatched in a day or two. Tule Frank says he picked them off an apple tree.

A Carom and a Long Run.

Manning & Berry have turned the old sorrel out and put a neat little bay in the wagon in her place. They loaned the outfit to the First National Bank to-day to take three bars of bullion to the express office. Adam was holding the horse but it got scared and broke away, running into Alfred Jose's wagon and starting his horse down towards the prison. It has not been heard of yet. The bay ran across the track, striking Chamberlain's fence, the wagon bumping over the rails at a lively rate. Horse and wagon turned over and stopped in front of the freight depot.

The Most Powerful Electric Light in the World.

The New Orleans *Picayune* has this to say in praise of W. W. Cole's new and massive shows, which are to exhibit in Reno, Aug. 21: At night there were over 8,000 people under the tent. Every seat was occupied, and all available space was crowed with people standing up. It was an immense crowd.

The electric light was the great feature. Twelve electric lights are under the tent and it is light as day. this circus has probably one of the best and most powerful electric-light machines in the world.

Struck the Wrong Man.

As C. R. Allen was passing McFarlin's corner about 10:30 last night, a man stepped up to him and kicked him on the ankle. Mr. Allen wheeled around and hit him a blow that sent him sprawling. The ankle is quite lame.

A Horrible Deed

AMERICUS, WEBSTER CO., GA., Aug. 6.—Last evening Woodson L. Gunnels, a well-to-do farmer living 20 miles from here, returned home at 10 o'clock and found his wife and nine or ten small children in a horrible sleep from morphia, administered in lemonade by Mrs. Gunnels. Medical aid was immediately summoned, but Mrs. Gunnels soon died. No hopes are entertained for the recovery of three of the children. The others are believed th be out of danger. A note in the handwriting of Mrs. Gunnels was found under some morphia on a table, in which she stated that she had deliberately administered morphia to her children and herself with the intention of killing them all, and that she was not actuated by any domestic trouble.

Dr. Tanner Suffering Terribly.

NEW YORK, Aug. 6—Dr. Tanner entered upon the last day of his long fast at noon. A chemical analysis of the fluid from his stomach, it is claimed, shows that the fast has been honestly kept. Every hour he walks around the enclosure without assistance that spectators may see him. At 1 A. M he was quite ill; fifteen minutes later he was lying on his cot with knees drawn up to the stomach. He fell asleep again but soon after made an effort to vomit, he brought up only a small quantity of matter. After a sleep of an hour the Dr. again drew himself up in a heap and soon after had another attack of nausea.

Railroad Survey.

From J. P. McKissick, of Sierra valley the *Mountain Review* learns facts concerning the survey of the Narrow Gauge R. R. from Reno. The line was run from Long valley, on the east and north sides of the lake to Upper Hot Springs, where it crosses the ridge to Mud Flat, on the line of the old emigrant road, thence through Secret valley to Spanish Springs and Madaline. Mr. McKissick had considerable conversation with the chief engineer of the party, and finds that the railroad can be run from Honey lake to Madaline, an average grade of forty feet to the mile, and seventy feet on the heaviest grade. According to observations taken by the engineer, Reno is about 500 feet higher than Honey lake, and sixty-two feet above Secret valley. The line of the proposed road traverses just ninety-two miles from Reno to Mr. McKissick's house. The surveyors say that the road will undoubtedly be built, and that it will travel the straightest possible route and have branches to reach the timber; but when they find how great the distance really is, it will probably alter their plans to some extent, although the road will no doubt be made on the most feasible route.

MISCELLANEOUS.

REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 86, to that where four per cent bonds are eagerly sought at a premium. Under its administration railways have increased from 31,000 miles in 1860 to more than 82,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1879. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $880,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tribunals.

Third. The work of popular education is one left to the care of the several States, but it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids Congress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each State is exposed to its particular domination. We therefore recommend that the constitution be so amended as to lay some prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK.

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty-making powers, the Republican party, regarding the unrestricted immigration of the Chinese as an evil of great magnitude, involves the exercise of the power to restrain and limit that immigration by the enactment of such just, humane and reasonable provisions as will produce the result.

Seventh. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws.

INIQUITIES OF THE DEMOCRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insatiable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United State to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

To Whom It May Concern.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.
